PRIVATE UTILITY LOCATING

WHAT IS PRIVATE UTILITY LOCATING?

Utility locating allows you to see what subsurface hazards exist in the ground to avoid striking them during construction. Penhall Technologies specializes in private utility locating, which is the process of identifying and labeling underground utility lines on private property. 811 locates ONLY public utilities from the street to the meter.

WHY LOCATE?

Cost Savings! For every dollar spent on utility Locating, a project will see, on average, \$4.62 in cost savings. Approximately \$1 billion is the annual national project savings.

WHAT UTILITIES CAN WE LOCATE?

- Gas Lines
- Power Lines
- Communication Lines
- Waste Piping
- Cable Lines
- Underground Storage Tanks
- Underground Pipe

61% of excavator involved damages and 21% of backhoe damages took place on a construction site where a locate was not performed prior to excavating- 2018, CGA

The consequences of damaging underground utilities during excavation work range from inconvenience (service outages and costly repair work) to catastrophe (large-scale property damage)

PENHALL TECHNOLOGIES IS A PROUD MEMBER OF THE CGA FOR STANDARD UTILITY LOCATING
